FOSTER HYDRAULICS

74 HP KUBOTA DIESEL
HYDRAULIC POWER UNITS

Heavy-duty Kubota diesel hydraulic power units designed for commercial, industrial and mobile requirements. Available with heavy-duty gear pumps or pressure-compensated piston pumps in 30, 35 and 40 GPM configurations.

74 HP	30-40 GPM	2,000-3,000 PSI	50 GAL.	25 GAL.
KUBOTA DIESEL	STANDARD FLOW	WORKING PRESSURE	HYD. RESERVOIR	FUEL TANK

HEAVY-DUTY GEAR PUMP MODELS

Model	Pump	Flow	Pressure	Engine	Reservoir	Weight	Price
74K-1-30 D/C	Gear Pump	30 GPM	3,000 PSI	74 HP	50 gal.	4,250 lb.	$36,315
74K-1-35-D/C	Gear Pump	35 GPM	2,500 PSI	74 HP	50 gal.	4,250 lb.	$36,415
74K-1-40 D/C	Gear Pump	40 GPM	2,000 PSI	74 HP	50 gal.	4,250 lb.	$36,515

PRESSURE-COMPENSATED PISTON PUMP MODELS

Model	Pump	Flow	Pressure	Engine	Reservoir	Weight	Price
74K-1P-30 D/C	Pressure Comp.	30 GPM	3,000 PSI	74 HP	50 gal.	4,250 lb.	$38,115
74K-1P-35-D/C	Pressure Comp.	35 GPM	2,500 PSI	74 HP	50 gal.	4,250 lb.	$38,115
74K-1P-40 D/C	Pressure Comp.	40 GPM	2,000 PSI	74 HP	50 gal.	4,250 lb.	$38,515

STANDARD EQUIPMENT & PHYSICAL DATA

- 74 HP Kubota liquid-cooled diesel
- Final Tier 4 exhaust-emission compliant
- 4-stroke, 4-cylinder diesel power pack
- Direct fuel injection
- Counter-balanced for high-speed operation
- Single-stage pump on standard 30 GPM model
- 3-way, 2-position hydraulic selector valve
- Adjustable relief valve
- 0-3,000 PSI liquid-filled pressure gauge
- 10-micron return-line filter
- Sight / level / temperature gauge
- Fan-cooled heat exchanger
- Adjustable thermostat
- Electric start with 12-volt battery and case
- Skid/platform with forklift access
- Quick couplers
- 50-gallon hydraulic reservoir
- 25-gallon fuel tank

APPLICATIONS & CONFIGURATION OPTIONS

Typical applications: construction equipment and hydraulic tools, mobile crane operations, industrial hydraulic systems, agricultural equipment, forestry, utility work, and marine / ship-dock service. **Pump choices:** heavy-duty fixed-displacement gear pump or pressure-compensated piston pump. Foster can configure the hydraulic controls and power-unit package to suit specific pressure, flow and operating requirements.
